

MOST. RUFAIDA ISLAM RISHAT

Data Annotator | AI Evaluator | Electronics & Communication Engineering Student

+8801786981591 | rufaidarishat@gmail.com | Basherhat, Dinajpur, Bangladesh

PROFESSIONAL OBJECTIVE

Enthusiastic Electronics & Communication Engineering student with hands-on experience in AI data evaluation and data annotation through remote roles at Outlier and iMerit. Committed to delivering accurate and consistent results while building practical exposure to machine learning workflows. Detail-oriented with a disciplined approach to structured tasks and quality standards.

WORK EXPERIENCE

AI Evaluator

Outlier – Remote | 2026 – Present

- Evaluated AI-generated content for accuracy, coherence, and quality to support the improvement of large language model (LLM) performance.
- Applied structured evaluation criteria to assess model responses, providing detailed feedback aligned with annotation guidelines.
- Maintained high consistency and accuracy across evaluation tasks, contributing to reliable training data for AI systems.

Data Annotator

iMerit – Remote | 2026 – Present

- Annotated and labeled datasets including images, text, and structured data to support machine learning model training pipelines.
- Followed detailed annotation guidelines to ensure data quality, accuracy, and consistency across all assigned tasks.
- Gained practical exposure to real-world AI workflows, data labeling tools, and quality assurance processes in a professional remote environment.

EDUCATION

BSc. (Engineering) in Electronics & Communication Engineering — Ongoing

Hajee Mohammad Danesh Science & Technology University, Dinajpur, Bangladesh

TECHNICAL SKILLS

Programming Languages: C, C++ (Academic Level)

CS Fundamentals: Basic Data Structures, Logic Building, Algorithm Design

Tools & Software: MS Office – Word, Excel (Proficient)

AI / Data: Data Annotation, AI Content Evaluation, ML Workflow Familiarization, Image & Text Labeling

Languages: Bengali (Native), English (Professional Working Proficiency)

KEY COMPETENCIES

- Attention to Detail | High Accuracy in Repetitive Tasks
- Time Management | Patience & Consistency
- Ability to Follow Detailed Annotation & Evaluation Guidelines
- Analytical Thinking | Problem-Solving
- Self-Motivated | Quick Learner | Remote Work Discipline

COMMUNICATION SKILLS

- Able to communicate clearly and effectively in both written and verbal form.
- Comfortable working with structured instructions and guidelines in a remote environment.
- Basic proficiency in English reading and writing for professional tasks.
- Capable of understanding and accurately following detailed annotation and evaluation guidelines.

ACADEMIC HIGHLIGHTS

Demonstrated strong attention to detail and accuracy through academic assignments and programming tasks in C and C++. Engineering coursework in signal processing, digital electronics, and communication systems provides a solid analytical foundation directly applicable to AI data evaluation and annotation workflows.
